Indication of any immediate medical attention and

special treatment needed

Ensure adequate ventilation. Avoid breathing vapours. Wear suitable protective clothing and gloves. Contaminated clothing should be laundered before reuse.

IF INHALED: Keep patient at rest. Remove to fresh air immediately. Seek medical attention if ill effects occur. If breathing is difficult, oxygen should be given by a trained person. If symptoms develop, obtain medical attention.

IF ON SKIN (or hair): Wash with plenty of water. If irritation (redness, rash, blistering) develops, get medical attention. Remove contaminated clothing and wash clothing before reuse.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.

IF SWALLOWED: Rinse mouth. Give 200-300mls (half pint) water to drink. Never give anything by mouth to an unconscious person. Call a POISON CENTER/doctor if you feel unwell.
